

ENVIRONMENTAL FEES DIVISION FEE CHART

The Environmental Fees Division administers and collects fees for eight fee programs.

Six of the fee programs are administered under the Health and Safety Code (H&SC) in cooperation with the Department of Toxic Substances Control (DTSC). These fee programs are:

1. **Hazardous Waste Facility Fee** (fee commenced 7-1-86) – Hazardous Waste Control Account (HWCA)
The Facility Fee applies to an owner or operator of a site that is permitted by DTSC to dispose, treat or store hazardous waste. Also included in this program are Standardized Permit and Postclosure Permit fees. The fees vary according to the permitted level.
2. **Hazardous Waste Disposal Fee** (fee commenced 7-1-85) – Hazardous Waste Control Account (HWCA)
The Disposal Fee applies to the disposal of hazardous waste to land in California. The Disposal Fee is paid directly to the disposal facility where the waste is submitted for disposal. The fee varies depending on the type and weight of the waste. Only disposal facilities are required to file returns.
3. **Hazardous Waste Generator Fee** (fee commenced 7-1-86) – Hazardous Waste Control Account (HWCA)
The Generator Fee applies to every person who generates five or more tons of hazardous waste in California within a calendar year at any specific site. This includes recycled waste and waste sent outside California for disposal. The fee is determined by the total tonnage of waste generated per site. If the Facility Fee has been paid for a site, the Generator Fee does not apply. Prior to January 1998, a Waste Reporting Surcharge was also due for each generator site.
4. **Hazardous Waste Activity Fee** (fee commenced 7-1-89) – Hazardous Waste Control Account (HWCA)
Activity Fees are based upon specific activities performed by DTSC. The fees are assessed upon notice to the Board from DTSC that a fee is due and are the result of an action requested by the fee payer, such as a new permit, permit modification, variance or site mitigation assessment fee.
5. **The Transportable Treatment Unit** (fee commenced 1-1-93) – Hazardous Waste Control Account (HWCA)
The Transportable Treatment Unit applies to owners or operators of sites that treat hazardous waste but, due to the volume of waste treated or waste stored, do not warrant a full facility permit. The fee is assessed as a flat rate fee per unit and by permit modification, pursuant to information provided by the DTSC.
6. **Environmental Fee** (fee commenced 7-1-89) – Toxic Substances Control Account (TSCA)
Until December 31, 2006, the Environmental Fee applied to corporations in industry groups that use, generate or store hazardous materials or that conduct activities related to those materials. Effective January 1, 2007, the fee was expanded to also include, General Partnerships, Limited Partnerships, Limited Liability Partnerships, Limited Liability Companies and Sole Proprietorships. The fee applies to businesses that are included in the industry groups and have 50 or more employees that are employed more than 500 hours in California during the calendar year. The fee is a graduated fee based on the total number of employees.

In addition, the Environmental Fees Division works with the California Department of Health Services in administering a fee program under the Health and Safety Code:

7. **Occupational Lead Poisoning Prevention Fee** (fee commenced 1-1-91) – Occupational Lead Poisoning Account (OCLP)
The Occupational Lead Poisoning Prevention Fee applies to employers in industries where there is evidence of a potential for lead poisoning. The fee is based on the employer's Standard Industrial Classification (SIC) code and the number of employees who are each employed in California for more than 160 hours in a calendar year.

And finally, the Environmental Fees Division collects fees in cooperation with the California State Lands Commission for a fee program under the Public Resources Code:

8. **Ballast Water Management Fee** (fee commenced 1-1-00) – Marine Invasive Species Control Fund (MISF)
The Ballast Water Management Fee addresses the problem of the introduction and spread of nonindigenous aquatic species into California state waters. The fee is set by State Lands Commission regulation and may not exceed \$1,000 per voyage. Effective January 1, 2004, the fee applies to each vessel with ballast tanks that arrives at a California port from a port or place outside of California waters. Prior to January 2004, a fee applied to each qualifying vessel that entered a California port from a port or place outside the Exclusive Economic Zone (EEZ).
